EDUCATION

B.Tech in Computer Science

GLA University

08/2019 - Present

Mathura

Intermediate

Suditi Global Academy

07/2018 - 04/2019

Etawah

High School

Suditi Global Academy

07/2016 - 04/2017

Etawah

SKILLS

HTML

CSS

JavaScript

Java

Data Science

Machine Learning

Python

Git

SQL

Data Structures and Algorithms

LANGUAGES

English

Full Professional Proficiency

INTERESTS

Machine Learning

Data Science

Android Development

Web Development

Problem Solving

INTERNSHIP

Data Science with Python

VERZEO Edutech

07/2021 - 08/2021

Bengaluru

Achievements/Tasks

- Learn new technology like Python and Machine Learning
- Worked on Data Analysis

Software Development Intern

Haltdos – WAF & DDoS Mitigation Solution Provider

12/2022 - Present

Noida

Achievements/Tasks

- Worked on the Company Platform UI for new tool implementation and bug fixes including IOC Tool, a tool to display top attacking IPs along with countries
- Designed and developed a VPN Desktop App using Python and Qt Framework
- Developed Android VPN App using the Openconnect GUI open-source project as a foundation, utilized Java and Android SDK to develop the App
- Developed and deployed the "Domain Lookup" machine learning model to accurately predict the category of domain names

CERTIFICATES

Certificate of Appreciation - Haltdos – WAF & DDoS Mitigation Solution Provider (04/2023)

Certificate of Internship - Verzeo Edutech (09/2021)

PERSONAL PROJECTS

Wine Quality Analysis (08/2021)

- Analysis of quality of wine using machine learning models.
- Apply ML model on a given dataset of no. of wines with their attributes.

Digit Classification (04/2021)

- Designed a project from the MNIST dataset to identify digit classification using any of the Decision tree algorithms using Machine Learning.
